OUH-21 & 22 ECO - ALTERNATIVE TO POLYISOBUTENE

3C20

SENSORY
BAR

ADEKA NOL OUH-21 eco & OUH-22 eco are a transparent non-greasy high viscosity oil with a soft and smooth skin feel. For skin care, hair care, sun care, and color cosmetics. Natural alternative for high-viscous Hydrogenated Polyisobutene.

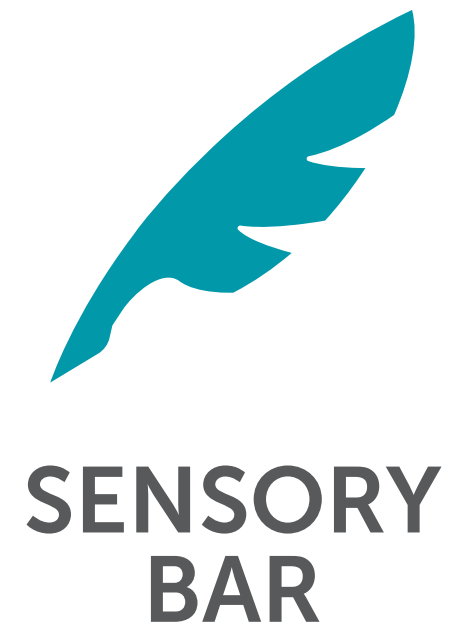

- Celesté scrub: A nourishing lip scrub infused with OUH-21 eco for smooth and radiant lips.
- Luminous Radiance Oil Serum: is a lightweight, transparent formula that deeply nourishes the skin, leaving it with a radiant, dewy glow.
- Cloud Blossom: is a silky, lightweight cream formula that effortlessly blends into the skin, transforming from a soft white to a radiant pink.
- Sky Velour: Velvety-textured formula that transitions from blue to a soft white providing deep nourishment and leaving the skin feeling refreshed, smooth, and glowing.

Ajinomoto Omnicem N.V.

ELDEW RANGE - MULTI FUNCTIONAL AMINO EMOLLIENTS

1C20

Eldew SL-205 is a very silky, light emollient with excellent solubilizing properties. With its fast skin absorption and non-sticky sensory, it allows to match stringent SPF conditions with a pleasant sensory in safe and coral reef friendly Suncare, as well as in non-comedogenic Skincare.

Eldew PS emollients have excellent water absorption and retention. These Amino Ceramides offer benefits to Skin, Hair and Makeup: recovery of damaged skin & hair; non-tacky feel; micro-crystalline wax replacement in long-lasting lipstick with unique melting sensory and improved strength.

We offer Eldew PS in 3 different textures, allowing to build a tailor made sensory:

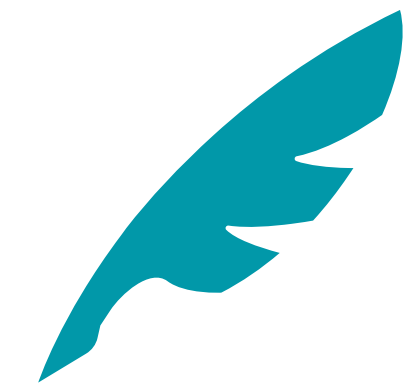

- Eldew PS-203(R): Liquid type
- Eldew PS-306(R): Paste type
- Eldew PS-304: Wax type

TEXTURE & SENSORY COMPASS

1B61

**SENSORY
BAR**

The Texture & Sensory Compass is an innovative tool designed to inspire and guide formulators. It categorizes formulations into four galenic forms - milk, lotion, cream and butter - but goes beyond traditional expectations. It shows how natural raw materials such as emulsifier, rheology additives, and emollients can be formulated to achieve desired results. The Compass considers two dimensions: Skin Feel (light to rich) and Rheological Behavior (fluid to solid).

The Texture & Sensory Compass provides quick guidance for formulators:

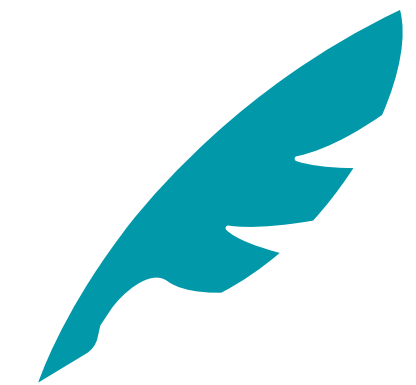

- Easy orientation based on the desired formulation type
- Raw material suggestions for specific galenic and sensory requirements
- Efficient formulation development times
- You can discover one formulation from each of the ranges with their outstanding textures

SOULFUL SHADES

1C150

SENSORY
BAR

It's all about YOU!

Every day, you're faced with a barrage of external influences, leaving little time to focus on yourself. What tends to be forgotten these days is the inner satisfaction and radiance of being happy. However, many people forget that a positive mindset can also improve relationships in their environment.

Our latest kit "Soulful Shades" focuses on positive emotions. The application of each formulation not only enhances your outer glow but also uplifts your spirits and promotes well-being for your inner harmony. Visit our booth 1C150 and learn more.

ECTOIN® NATURAL

5B100

SENSORY
BAR

Ectoin® natural (INCI: Ectoin) is a 100% natural amino acid derivate. This multifunctional, must-have active shows outstanding, scientifically proven cell protection and skin barrier repairing efficacy. It shields skin from damage caused by stress factors and supports a healthy skin microbiome. At the same time, the lab-grown bioactive offers anti-aging and repairing benefits by regenerating damaged, inflamed, and stressed skin.

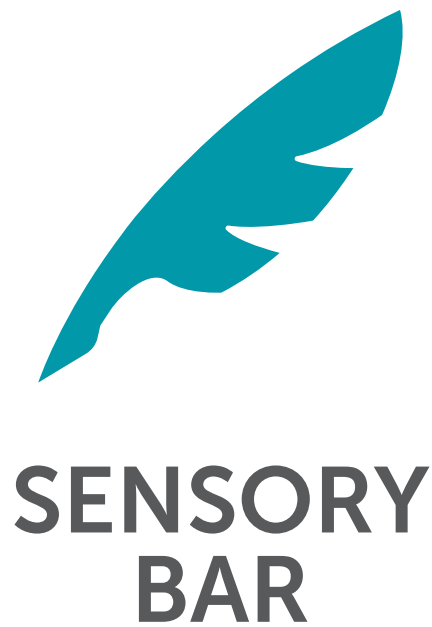

- Lab-grown powerhouse active ingredient with scientifically proven efficacy
- Highly-effective, multifunctional (for anti-aging, skin repair, anti-inflammatory, anti-pollution, blue light protection, long-term hydration, microbiome support)
- 100% sustainable, natural & safe active, produced with fermentation (EcoCert, COSMOS, NATRUE, Vegan, Halal)

BRB International B.V.

TRANSFORMATIVE SENSORIAL EXPERIENCE

2A70

BRB International introduces a journey of sensorial elegance, where holistic multisensory innovation meets the art of enhanced beauty.

Experience a deeply hydrating moisturizer¹ that melts into skin, leaving it soft, radiant, and dewy. A silky serum² infuses hair with shine and tames frizz. A subtle blush³ adds warmth and vitality. Key ingredients include:

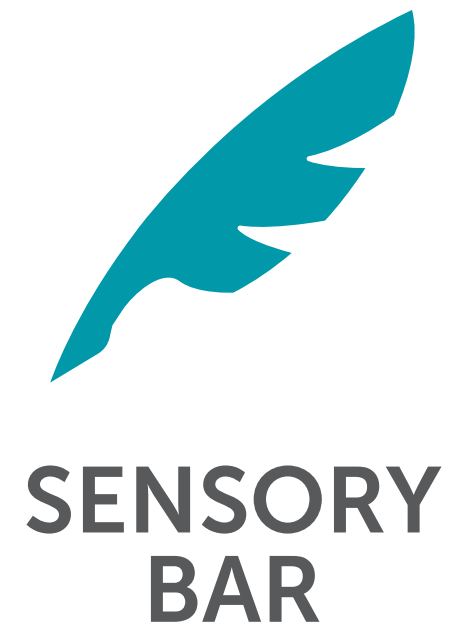

- Emfinity[®]SG 532, 534 & 250: Improve the texture, and spreadability while also creating an exceptional powdery and protective barrier on the skin.
- Emfinity[®] CGSA 200 B: A plant-based ester packed with formulation benefits and multi-functional attributes, providing a cushiony skin sensation and a radiant glow.
- Emfinity[®]GB 1864: A non-cyclic containing gum blend providing silkiness, smoothness, and exceptional shine on hair and skin glow.

Brenntag Holding GmbH

BEAUTIFUL SOLUTIONS FOR SUNLIT BLISS

1E50

Imagine sun protection transformed into a heavenly ritual – SPF with luxurious textures and uplifting fragrances.

Sun & Sea Mist: A lightweight biphasic SPF mist that protects, hydrates, and smooths hair, leaving it soft, shiny and delicately scented with a sunshine-fresh fragrance.

Glow & Go: This tinted SPF 50 BB cream gives the skin a natural, radiant glow with breathable protection and a smooth, effortless finish.

Sunlit Silk: An SPF 50 compact with cream-to-powder texture, that perfects your complexion with a soft, flawless finish, while protecting and soothing the skin.

Tropical Touch: A clear SPF 50 stick for seamless, all-day body protection with a silky feel and an uplifting scent.

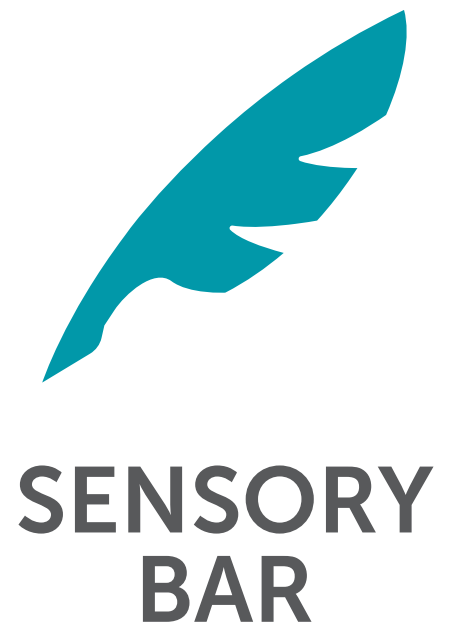

- Multi-sensory sun care
- Innovative transforming textures
- Mood-enhancing fragrances and actives

POLYNAT® VEGETAL ALTERNATIVE TO SYNTHETIC POLYMERS

5A30M

Product 1

The POLYNAT®T11 improves texture and ensures perfect stability of cosmetic formulations, offering a key solution for homogeneous, high-performance products.

This 1% gel of POLYNAT®T11 is distinguished by its soft, velvety feel, offering a pleasant sensation on the skin. Its film-forming effect creates a light protective film with high sensorial properties.

- 100% vegetal
- Gelling agent
- Suspensive agent and co-emulsifier

Product 2

Our cream-gel OSER based on POLYNAT®T11 brings a unique sensoriality and cocooning skin effect. POLYNAT®T11 allows to stabilize 10% of squalane and suspend soft-focus powder without any emulsifier.

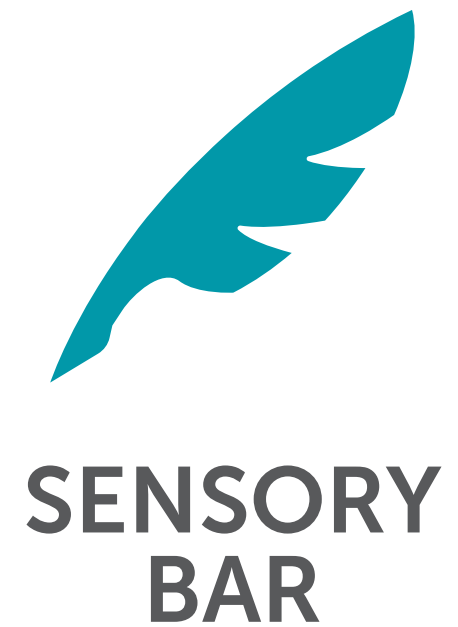

- Velvet and soft skin afterfeel
- Film forming effect
- Silicone - like touch

CARBONWAVE

DISCOVER AN OCEAN OF TEXTURES WITH SEABALANCE®

 - Outstanding silicon-like feel
 - Moisturizing and skin-barrier reinforcement
1. SeaBalance® basic O/W lotion
 - Pickering emulsion
 - Super white & shiny aspect
 - Fluid texture with amazing sensorial feel
 2. Curl defining serum
 - Surfactant-free emulsion with only SeaBalance®
 - Soft silky touch for daily moisturization
 3. Water foundation
 - Easy to combine with your daily routine
 - Good spreadability & pleasant lightweight feel
 - Suspending properties for pigments and pearls
 4. Cleansing butter
 - Rich feeling & no irritation
 - Soft afterfeel with no residue

Cargill Beauty

LUMINOUS CREAM

5C30

Shine every day with Luminous cream with Florasomes™ beads that melt into the skin, releasing vitamin E and glitter for a subtle glow without sticky residue.

The transformative texture achieved with the rheology modifiers Actigum™ Care & Satiagel™ VPC 508 creates a mousse to cream texture with extended playtime, revealing the glitter encapsulated in the Florasomes™.

Actigum™ Care is a synergy of sclerotium gum and starch derivative which ensures the stability of this mousse-cream, allowing it to withstand temperature variations and transport. Additionally, it provides the necessary suspension for the pearls.

Dow

TOWARDS NET ZERO WITH SILICONE ELASTOMER BLENDS

1E80

Advancing to Net Zero with Dow Silicone Elastomer Blends (SEBs), the first carbon neutral SEBs for skin, sun and colour cosmetic applications.

Our DOWSIL™ Elastomer Blends Decarbia™ grades result from decarbonizing our silicon metal feedstocks, the most carbon-intensive part of silicone production. By investing in this process and offsetting remaining emissions, we offer four carbon-neutral silicones for personal care, verified by PAS 2060.

These grades exhibit the same benefits as their equivalent DOWSIL™ grades and do not require any changes in formulation processes.

Benefits:

- Smooth and powdery afterfeel
- Blur skin imperfections
- Oil phase thickener with hot or cold process

ULTIMATE TEXTURE DUO

1C30

One ingredient, two unique textures!

Creating a multi-functional, non-greasy, oil-based sunscreen and a lightweight W/O lotion with nice sensory can be challenging. BENTONE® ULTIMATE offers enhanced formulation flexibility with unique textures.

Gelled Oil Sunscreen: An invisible, non-greasy oil-based sunscreen with a predicted SPF of 30. It protects and provides a unique sensory experience. BENTONE® ULTIMATE ISD as the main rheology modifier, builds texture in low-viscosity systems, ensuring even application and SPF boost.

Bare Canvas Face Base: A cold-processed, lightweight W/O lotion that delivers moisture with a dry yet comfortable feel. With a minimal INCI list, it acts as a base for makeup. At just 7% use level, BENTONE® ULTIMATE ISD ensures emulsion stability and even application.

Eurofragrance SLU

EUROMOTION™: POSITIVE EMOTIONS THROUGH EUPHORION™

12H80

Scientific studies and aromachology literature support the fact that certain fragrance ingredients possess mood-enhancing properties.

Eurofragrance developed EuroMotion™, a breakthrough technology designed to strengthen the connection between olfaction and emotions.

- What sets EuroMotion™ apart is the incorporation of our exclusive captive ingredient, Euphorion™
- With its remarkably refreshing profile, Euphorion™ stands out for its ability to activate the trigeminal nerve, delivering noticeable sensorial effects
- When Euphorion™ is combined with mood-boosting ingredients, it enhances their intensity and amplifies the emotional moods they evoke, creating a deeper and more immersive sensory experience

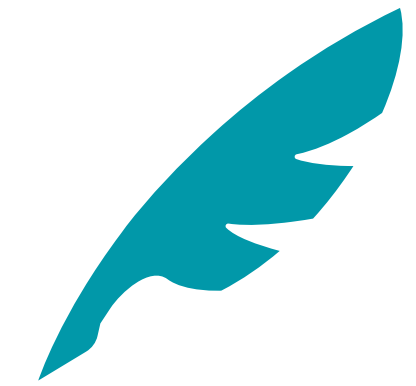

Experience fragrances crafted with EuroMotion™ technology and get in the mood!

Evonik Industries AG

SUSTAINABLE ENZYMATIC EMOLLIENTS

1A20

SENSORY
BAR

Evonik's enzymatic emollients are manufactured through a sustainable enzymatic process using natural feedstocks, resulting in high-quality, readily biodegradable products. This low-energy, enzyme-catalyzed process is fully running on renewable energy. It offers environmental benefits by minimizing by-products and significantly reducing the CO2 footprint compared to conventional esterification processes.

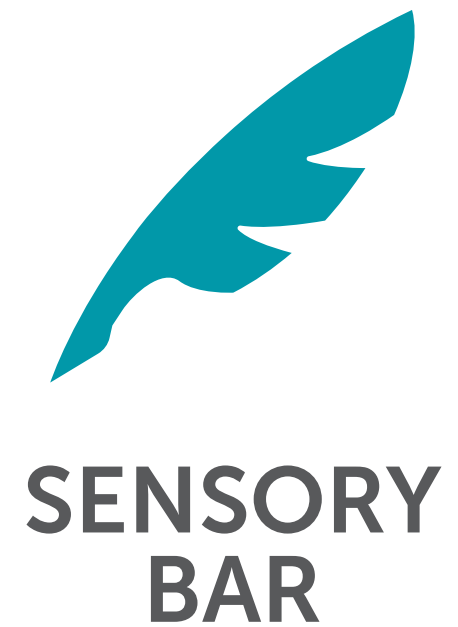

They offer an exceptional range of ingredients for sustainable beauty solutions, addressing diverse cosmetic formulation needs such as sensory improvements, moisturization, UV filter solubility and pigment wetting enhancements. Evonik's emollients enable the development of formulations across all categories, including skin care, sun care, color cosmetics, hair care, and AP/Deo.

Jingkun Chemistry Company

AMINO ACID SURFACTANT

1E129

SENSORY
BAR

Amino acid surfactants are mild, low-irritation cleansers made from natural amino acids (like glutamic acid and glycine). They are highly biodegradable, environmentally friendly, and mimic human sebum, effectively cleaning skin and hair while maintaining the barrier function.

They help avoid the dryness and sensitivity caused by traditional sulfate surfactants. Widely used in shampoos, body washes, high-end facial cleansers, baby care products, and sensitive skin care products, they represent an important 'green chemistry' advancement.

VIVAPUR® CS TEX SUN

1A70

SENSORY
BAR

A co-process of Microcrystalline Cellulose and Cellulose Gum, has great suspending and emulsion stability properties which lead to a homogenous distribution of organic and inorganic UV filters in waterbased products and increase additionally the SPF value of formulations. Benefits extend to spray applications, where it improves spray mist quality, ensuring a fine, even application.

This ingredient is essential for developing high-performance, protective skincare. By comparing two different sun spray formulations (one with a Xanthan Gum base, the other with VIVAPUR® CS TEX Sun), it can be shown that the formulation with VIVAPUR® CS TEX Sun has a softer, non-sticky skin feel, better sprayability and also a 23 % higher SPF value.

- Unique skin feel
- SPF booster
- Homogenous spray mist

AWEMOTIONS

1D30

SENSORY
BAR

AWEmotions is a new concept where advanced neurocosmetic science meets unique sensorial experiences. It turns skincare into a journey of awe, blending unique textures, luxurious sensations, and potent active ingredients. AWEmotions aims at elevating daily routine with skin care that create daily bursts of positivity, supporting both mental and physical health.

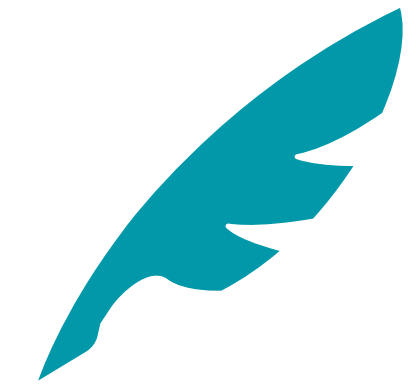

- Inspired by the powerful emotion of awe, AWEmotions transforms routine skincare into uplifting micro-bursts of wonder, promoting optimism and relaxation.
- From cushion-like creams to luxurious mousse scrubs and opalescent serums, each formula offers a distinct, indulgent texture designed to delight the senses while delivering tangible skin benefits.
- Address skin health and emotional well-being for a holistic self-care experience

Lucas Meyer Cosmetics by Clariant

PICKMULSE™

1D30

SENSORY
BAR

Pickmulse™ is a natural emulsifier that redefines the sensory experience of emulsions. It creates luxurious pearly white Pickering emulsions with a soft, powdery finish, enabling diverse textures, from delicate mist to airy gel-cream. Beyond its sensorial properties, Pickmulse™ delivers mood-enhancing benefits validated through an fMRI clinical study, which demonstrated activation of brain regions linked to reward and positive emotions. Pickmulse™ also excels as an encapsulation system, protecting lipophilic ingredients while enhancing sensory impact.

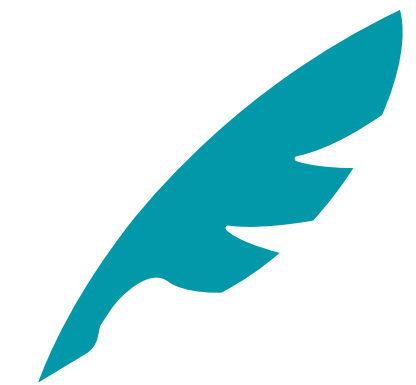

- Sustainably-sourced surfactant-free emulsifier
- Clinically-proven feel-good ingredient
- Transforms into encapsulation system when heat-processed

Momentive

HARMONIE NATUVEL GEL

FEEL IT TO BELIEVE IT

Harmonie NatuVel gel brings breakthrough innovation to the personal care industry. This 100% biobased elastomer gel network enables a new generation of skincare and color cosmetics.

Create 100% naturally derived products with soft focus effects and a luxurious sensory experience: soft, powdery-dry, cushioned skin feel.

Invisible Gel Sunscreen

- A pleasure to use
- Quick & easy to apply
- Dry touch, non-greasy feel

Crystal Sunscreen Stick

- Easy and convenient
- Targeted protection for high-risk areas
- Stunning sensory with SPF

Smoothing Foundation Mousse

- Incredible cushioned sensory
- Blurring, soft-focus effects
- Soft, silky, and luxurious

Blushing Cheek Tint

- Natural beauty for minimalist routine
- East gliding application
- Uniform color for a soft touch

Nikko Chemicals

“WOWOW!”-WELCOME TO THE NEW WORLD OF WATER-IN-OIL

1B80

Water-in-oil emulsions have a typical image of 'heavy' or 'occlusive' and have been commonly used for sensitive skin care in the East Asian market.

NIKKO CHEMICALS invites you into the new world of W/O emulsions with “WOW” textures from 2 perspectives.

“WOW” Clean

- Facial Fitness Jelly- W/O/W structure- starts as cooling gel and finishes into a protective oil film (NIKKOL Hexaglyn PR-15 + NIKKOL NIKKOMULESE® LH).
- Strawberry Lip Milk- a fluid emulsion with >55% watery elements (NIKKOL Hexaglyn PR-15 + NIKKOL Decaglyn 5-HS).

“WOW” Performance

- Skin Rescue Hydrobalm locks 60% of water phase with a watery melting touch (NIKKOL NIKKOMULESE® WO-CF).
- Water-in-SPF Stick - a 30% water-in-stick boosted with a hybrid filter combination (in-vitro SPF47, PA++), (NIKKOL NIKKOMULESE® WO-CF).

TULIP STORY: CULTIVATING ESSENTIAL BEAUTY

3A30

SENSORY
BAR

Grow your heart

Having strong roots enables you to grow securely. It's the same for hair. Take care of your hair roots by revitalising your scalp thanks to this pre-shampoo scrub containing our exfoliant Exfobreeze, made of upcycled cork particles

Sow the seeds of hope

From the smallest seed begins hope of growth, renewal and beauty. From the upcycled exfoliant Exfowind Tagua seed begins a healthy skin

Bring drops of life

Water is essential for flowers to bloom, for skin to replenish. This serum including oil drops in suspension in a light watery gel of Vita Retigel, mimics a rain of deep hydration and nutrition on your skin

See the beauty grow

Inspired by Amsterdam's tulips, this emulsion covers the skin with a velvety touch thanks to Bonderm 10 Olive leaving it as soft as tulip petals

Roquette Beauté

Purify and energize your skin with this cleansing foam featuring Beauté by Roquette® SA 130.

Sublimate with Cherry Day Cream

Replenish your skin with our day cream, enriched with Beauté by Roquette® ST 730 & PO 500, providing immediate hydration and lifting.

Mattify with Sandy Cloud

Achieve a matte finish with our loose powder, formulated with Beauté by Roquette® ST 305, to keep shine at bay.

Illuminate with Mocha Glow

Finish with our highlighter, powered by Beauté by Roquette® ST 305, for a stunning glow.

Experience the synergy of color, energy, and sustainability with Roquette's skincare for radiant, youthful skin.

SABO S.p.A.

AMORE E PSICHE—A TALE OF LOVE TOLD THROUGH TEXTURE

5E60

Amore e Psiche is a dual-texture formula inspired by the legendary love story of Cupid and Psyche—a tale of trials, separation, and reunion, as told in *The Metamorphoses* by Apuleius. Encased in an elegant dual-chamber packaging, the two distinct formulations remain separate, waiting for the moment of their fusion.

AMORE

- Transparent gel with ozonic notes
- Features SABOSOL RF MB (patented), SABOCARE® PG6L MB
- Lightweight, high naturality

PSICHE

- Lightweight, semi-translucent emulsion with floral notes
- Includes SABOSOL RF MB (patented), SABOSOFT RP MB, SABODERM CVC MB, SABODERM MLC MB, SABOSORB MO MB
- Marbled with golden pearls, high naturality

HOW TO APPLY

First, apply a generous drop of Amore, then Psiche, layering them like concentric circles. Rub to reveal the transformation.

SAFIC-ALCAN

SMOOTH OPERATOR – NATURAL BLURRING PRIMER

1A110

SENSORY
BAR

Discover how Sustainability & Science in our “Beauty Makes History” campaign highlights next-gen formulations such as this 100% natural primer with a breathtaking texture!

Powered by Momentive Harmonie™ NatuVel Gel, a 100% bio-based naturally derived elastomer, it offers a cushiony feel, with soft-focus, blurring & matte effects. For long-lasting wear, Nouryon SolAmaze® Natural, a bio-based, biodegradable film-forming polymer, takes the lead.

Skin benefits are carried by Mibelle NovoRetin™ O, a plant-derived retinol alternative with anti-aging effects and Givaudan Commipheroline®, with plumping properties. Momentive Harmonie™ Luxe 4 Powder & Nouryon Tapioca Pure, deliver oil absorption & a silky powdery finish.

Visit us #1A110 and write the next page in the beauty history with Safic-Alcan!

Seppic

LET IT FREEZE! A NEW MAGICAL FACE CARE TEXTURE.

5D110

**SENSORY
BAR**

To achieve a stable, aesthetically pleasing, and readily applicable product, the formulation challenge is to monitor all the formulation parameters: stirring dynamics, oily phase characteristics, viscosity of the gel matrix. The gel network was constructed using a synergistic blend of Sepimax Zen™, Solagum™ Tara, and Sepinov™ WEO, selected for their thickening and stabilizing properties. Many trials were done to determine the optimal formula composition and manufacturing process impacts to obtain these non-uniform, spherical, soft emulsion beads thanks to Fluidanov™ 20X for a “snowball” effect.

Unique sensory experience with emulsion beads in suspension in a gel
Stable, suspending, sensorial clear gel, excellent spreadability/absorption
'Snowball' emulsion: soft, readily spreadable beads

TEXTURE YOU CAN FEEL FOR BEAUTY YOU CAN FEEL.

2B40

SENSORY
BAR

The development of different textures requires a skillful selection of raw materials in the right concentrations. Take a moment to test the sensory properties of our four products.

Sulphate Free Anti-Hair Loss Shampoo

The mild shampoo with carefully selected surfactants gently cleanses the hair without irritating the sensitive scalp.

Natural Multi-Use Hair & Scalp Oil

This silicone-free hair oil improves the combability of dry hair ends and is also the perfect care for dry scalps.

Pink Purifying Clay Stick Mask

The stick mask can be used for the entire face or just for the T-zone. It soothes the skin, reduces impurities and visibly improves the complexion.

Make-up Fixing Spray

The Make-up Fixing Spray not only fixes the make-up but also serves as an ideal base instead of a primer.

BEST FACE FORWARD DUO

2D41

**SENSORY
BAR**

Sunday Funday
Face Mask

Give Me More
Serum Emulsion Drops

Great things come in pairs! This face duo offers two ways to prep the skin. The rice-infused mask gives an ultra-matte finish, thanks to GOSULIN® RICE. It's cloud cushion texture adds a bit of fun to any cleansing routine. Give Me More Serum smoothens, moisturizes and elevates facial rituals with a bit of luxury. The "let me check the price again" texture is 100% luxe at its finest due to star ingredient CreaSkin Glide.

Upgrade your old routine with this duo and put your best face forward!

- Sunday Funday is a multi-tasking formula = dry cleanser + mask
- Give Me More = easy absorption + incredible application (leaving a great base for make up or natural looks)
- Hero Ingredients:
CreaSkin Glide & GOSULIN® RICE

TECHNATURE

EVANESCENT PATCHES

2A40

**SENSORY
BAR**

Evanescent Patches revolutionizes skincare with an innovative technology, an exclusive collaboration between Technature and Nafigate Corporation. This 100% natural and biocompatible dry patch instantly blends with the skin, providing an immediate tightening effect.

- Instant disappearance & WOW effect – Upon application, it merges with the skin for a unique visual and sensory experience, leaving no residue.
- Immediate tightening effect – Delivers a refreshing sensation and instant firming, leaving the skin smooth and radiant in seconds.
- Ultra-fast application, no waiting time – Unlike traditional patches, it activates upon contact with the skin, making it a simple and effective solution for an express beauty routine.

TRI-K Industries Inc.

THE RADIANCE RITUALS COLLECTION

This curated set of four refined formulations designed to hydrate, cleanse, nourish, and refine your skin. This collection embodies cutting-edge innovation and indulgent care, ensuring your skincare routine delivers radiant results.

Featuring multi-weight hyaluronic acid for deep hydration, natural peptides to promote an even tone, and a microbiome-friendly active for gentle cleansing, each product is formulated to enhance your skin's health and vitality. Together, these products work harmoniously to rejuvenate, protect, and redefine your complexion.

- Unique Concepts: Leveraging advanced ingredients tailored to diverse skin needs.
- Sensorial Experiences: Immerse yourself in transformative textures.
- Proven Benefits: Backed by science, these ingredients deliver visible, radiant results.

Univar Solutions

INVERSE ME SPF30 SUNCARE

1E80

**SENSORY
BAR**

Inverse Me SPF30 Suncare, a switch oil phase emulsion (SWOP), is a 100% mineral broad-spectrum sun lotion formulated with a COSMOS-approved and eco-safe mineral UV filter. SWOP emulsions are metastable O/W emulsions that invert into W/O emulsions on application when rubbed onto the skin.

This non-whitening SWOP emulsion allows the best characteristics of both types of emulsions: the sensory profile of an O/W emulsion during application with the performance advantages of the W/O emulsion. It forms a lipophilic film on the skin that confers water resistance to the product without including film formers.

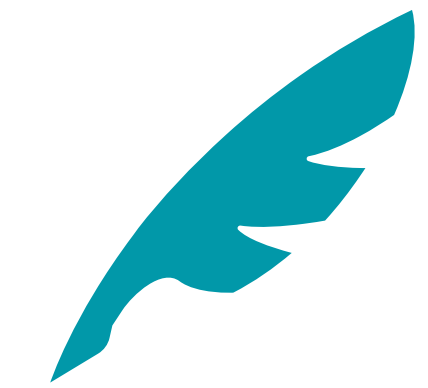

This sun lotion was prepared using a cold process and low shear emulsification process, helping producers to reduce energy consumption and carbon footprint during the manufacturing stage.

Univar Solutions

IN-VISIBLE SPF 30 PRESSED POWDER

1E80

SENSORY
BAR

This mattifying mineral SPF30 compact powder distinguishes itself by its effectiveness and reduced ecological impact. Unlike traditional suncare emulsions, this on-the-go powder version is waterless and more compact which greatly reduces the economic and environmental costs of their transport. Its weightless texture, easy to reapply over makeup during the day, will provide a broad spectrum protection.

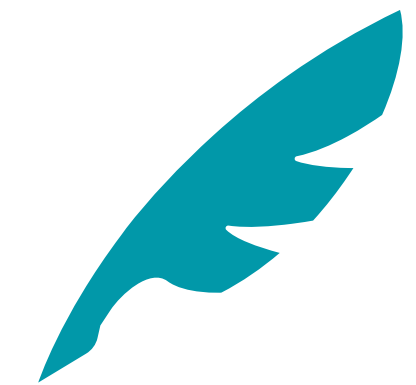

Purple rain, purple rain! The production of powder cosmetics requires less water and energy which contributes to a more responsible use of natural resources. Powder formulas also have longer shelf life.

Uviva Technologies

ECLIPSE® Z ZINC OXIDE

5G110

SENSORY
BAR

New and advanced textures of mineral suncare products, made possible with Eclipse® Z zinc oxide, the latest generation of zinc oxide. Due to its unique particle morphology, Eclipse Z provides the highest transparency in the industry without sacrificing SPF and UVA performance and has the lowest impact on formula viscosity. Even when using levels of 25% zinc oxide, Eclipse enables the development of low viscous systems and textures that are suitable for serums, sun milks and sprays and dosage forms including droppers.

For further boosting of both SPF and UVA performance, the all-natural KanShield Max®, booster can be used. Made from pongamia seed, licorice root and lotus flower extracts, KanShield Max works synergistically with Eclipse Z1 and is further Cosmos v4 certified.

Vantage Personal Care

VANTAGE OASIS: THE BEAUTY IN BALANCE

1A30

SENSORY
BAR

Vantage Oasis – where innovation meets harmony. True elegance comes from the seamless fusion of science, nature and design. These formulations embody this notion while enhancing overall well-being and creating a sense of balance in everyday life.

- The Amazonian Butter to Oil is a rich luxurious butter texture that melts down to an elegant oil once massaged into the skin. This formula features sustainably sourced LIPOVOL[®] ORIGIN CACAY and TUCUM-HA EFX[™] from the Amazon forest.
- The Nourishing Milk-Shake Hair Primer is a bi-phase, silicone-free leave-in spray for wavy and textured hair. The formula is enriched with natural ingredients, including our COCONUT-AVOCADO HAIR MILK which gives the appearance of floating milk drops that protect the hair and offers a fun 'lava lamp-like' visual.

Vizor

NON-NANO MINERAL SPF PROTOTYPES FROM VIZOR

3C10

Sun Mist Spray SPF 50
Seaweed Serum SPF 30
Sun Silk Body Lotion SPF 50
EcoGlow Stick SPF 50

A Revolution in Protection: Finally, a luxurious, non-nano Zinc Oxide that's truly transparent on skin.

Maximum SPF, Minimal Zinc: Vizor's patented technology delivers the highest SPF in the industry, so you can use less and still hit your SPF targets.

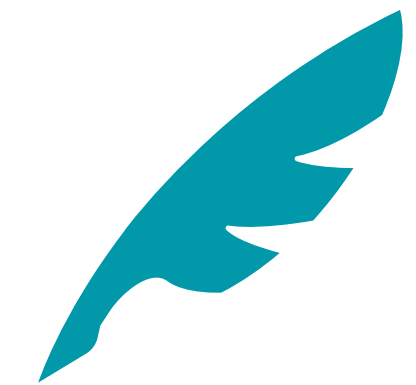

Natural, Effective, Planet-Friendly: It works, it's COSMOS certified, and it's gentle on the environment. Ask us about our environmental studies!
